
SCC/Level Up Goals

Community For Unity

Sacramento Ca, 2020

Our goal is to break the divide that our communities have created through song. Our ultimate goal is proving that communities, of all backgrounds, can come together in Joy, and work together in all shapes and forms of unity and involvement. Rebuilding and Rebranding. WE are who make our city great again. Community!

We strive for excellence amongst ourselves and our communities. Our communities can expect Trust and Respect from us, as we desire the same level of trust and respect from them.

We will approach our community in Love, always.

We desire to be an example of Leadership within our city, for all ages. Music and Performing arts as a whole, lives in all of us.

We desire to reach and teach our community work ethics and how to communicate with each other through Music and Action.

Parent participation is necessary. We are the first impressions of excellence to our youth. Stay in tuned with their future.

What are Specific Goals?

- Investments, Grants, Donations...why?
